WHAT'S NEW AT HIPPOCRATES WELLNESS THIS MONTH?

ASK THE EXPERTS

Q. What are the best natural remedies for improving fertility? - Ethan Moore, Austin, TX

A. Hippocrates is known for a wide variety of exceptional results for those who embrace this historic lifestyle. One of the most notable is fertility. Over the last 70 years, we have worked with thousands of couples in their quest to conceive, and some of them have done so on campus and then come back and have their babies at the same place they became pregnant. We have endless stories of people who are unable to conceive and then erase that blockage via our hormonally and nutrient-rich cuisine. In addition to deep psychotherapy sessions, while in the program, it turns out to be a fertility festival. At one point, dozens of pictures of babies were displayed that people had based on Hippocrates's food lifestyle.

Q. What are the best ways to enhance gut health naturally? - Julia Thompson, Boulder, CO

A. Previously, science exposed the importance of a high plant/roughage diet to produce healthy bacteria within the intestines. Today's science has revealed that uncooked organic plant fare is the true and essential food producing an exceptional microbiome where 80% of your immune system and 90% of your psyche is generated.

THE POWER OF SELF-HEALING

BY ANNA MARIA AND BRIAN CLEMENT, PH.D., L.N.

A Journey of Transformation

As we embrace 2025, we are reminded of the remarkable power each of us possesses to self-heal. For over seven decades, Hippocrates Wellness has witnessed extraordinary recoveries from those who fully embrace a lifestyle rooted in nutrient-rich organic cuisine and progressive wellness practices. These individuals not only transform their health but also their outlook on life, unlocking the full potential of their body's innate wisdom.

Inspiring Stories of Healing

One story that continues to inspire us is that of a courageous woman who overcame what mainstream medicine deemed an "irrefutable problem." After undergoing surgery for tongue cancer, she was told she was "cured," only to have the disease spread to her lungs months later.

Refusing to accept defeat, she sought a different path and joined us at Hippocrates Wellness. Through commitment and determination, she reduced her tumors by two-thirds in just a few months and was later declared cancer-free. Stories like hers remind us of the boundless potential we all carry within to heal and thrive when we set up the right conditions with our bodies.

Reclaiming Your Inner Strength

When life feels overwhelming, it is easy to fall into the mindset of being a victim of circumstance. This devalues the healing energy we are all born with. By reconnecting with our purpose and embracing our inner wisdom, we can break free from these limitations and achieve extraordinary outcomes. At Hippocrates, we've seen countless individuals recover not just physically but emotionally and spiritually as they reclaim their lives and reawaken to their true potential.

"Healing is not just about overcoming illness but tapping into the infinite potential within us all."

The Cycle of Growth and Recovery

Life is a journey of challenge, healing, and recovery. Each stage of this cycle brings an opportunity for growth, awareness, and strength. By embracing this process, we can rise above adversity and rediscover the vibrant energy that connects us to the universe. Healing is not just about overcoming illness but tapping into the infinite potential within us all so we can live the long and healthy lives we deserve. Each challenge we face carries a hidden gift—an opportunity to learn, evolve, and deepen our connection with ourselves and the world around us. When we open ourselves to this natural cycle, we cultivate resilience and create a solid foundation for lasting vitality and joy.

Your Energetic Path to Recovery and Renewal

The universe is always connected to you, offering support and energy to guide your journey. By aligning with these universal frequencies, you can transcend perceived limitations and step into a new era of consciousness.

Recovery and self-healing are not just possibilities but powerful ways of living that lead to enlightenment and lasting vitality.

Let this new year be a reminder that the power to heal lies within you. Embrace it fully, and watch as your life transforms in ways you never thought possible.

KATHY HARGROVE'S STORY

OVERCOMING OBESITY, DIABETES, AND TRAUMA

At 250 pounds and on 22 medications, I felt defeated. Desperate for change, I discovered Hippocrates Wellness online and decided to try their approach. Initially overwhelmed, I slowly opened up. Psychotherapy helped me confront my past and find self-worth. Embracing a plant-based lifestyle, I lost 100 pounds, reversed my diabetes (A1C from 13 to 5.1), and alleviated the strain on my heart, joints, and kidneys. I also discovered I had alpha-gal syndrome, a tick-borne condition that causes rejection of animal products. With this knowledge, I continued healing. Returning to Hippocrates, I addressed lingering physical and emotional challenges, and therapies resolved pain in my knees and hips. Today, at 65, my biological age is 51. This journey taught me to reconnect with my inner child, remove emotional blockages, and embrace self-love. The changes I made transformed my life, and I'm eternally grateful to Hippocrates for helping me unlock my vitality and rediscover my true self.
