NOVEMBER 2024 / QUANTUM WELLNESS

WELCOME FROM OUR CO-DIRECTORS

This month, we're excited to explore Quantum Wellness—a way of approaching health as more than a physical state but as a dynamic flow of energy, consciousness, and intention. Quantum Wellness invites us to view wellbeing from a broader perspective, understanding that our thoughts, actions, and the energy we project all contribute powerfully to our health and the world around us.

By making small yet meaningful shifts in how we think, feel, and act, we create space for more intentional, energized living and tap into the powerful connection between mind, body, and energy. This approach gives us a renewed sense of agency over our own health.

In this newsletter, you'll find insights on how to incorporate these principles into your daily routine, from practices that ground and center you to actions that uplift and energize. Join us as we explore this journey toward becoming Quantum Humans, embracing the powerful potential within each of us to create lasting, positive change.

Here's to a conscious, thriving future!

Be well,

Anna Maria and Brian Clement
Co-Directors, Hippocrates Wellness

LATEST NEWS AND UPDATES

WHAT'S NEW AT HIPPOCRATES WELLNESS THIS MONTH?

ASK THE EXPERTS

Q. What's the most effective way to naturally destress? - Liam James, Miami

A. You must find passion in pursuing life. We are all on the Earth to love, be loved, and, most importantly, fulfilled. When we allow ourselves to be in untenable, uncomfortable, and disruptive relationships, workplaces, or friendships, we are asking for stress, and we will receive it. The tools of prayer, meditation, and contemplation can quiet the mind's noise. Yet, ultimately, it is a losing fight unless you change the environmental cause of the disharmony. We also suggest raw, pure CBD oil, magnesium, Ashwagandha, and 5HTP.

- Anna Maria Clement, PH.D., L.N.

Q. What are the early signs of Dementia? - Hans Berg, Norway

A. Pronouncing certain words poorly, consistently having patterns of forgetfulness, and feeling alone and lost. There is a big difference between memory loss, dementia, and Alzheimer's. Here at Hippocrates, we have an Alzheimer's Program led by one of the world's foremost authorities on these brain/Neurological disorders. Beyond diet, certain nutrients, treatments, and lifestyle protocols render results. Mainstream medicine is wrong when it says there is not much that can be done with suppressing the brain with ineffective medicines.

- Brian Clement, PH.D., L.N.

OUR REVOLUTIONARY GENETIC OFFERING

Hippocrates Wellness is proud to announce our innovative partnership with ExtendingME, America's leading genetic testing center. THINK PIECE

QUANTUM HUMANS

BY ANNA MARIA AND BRIAN CLEMENT PH.D., L.N.

Understanding the Quantum Human

Quantum Humans embody the realization that health and happiness are dynamic processes, shaped by energy, intention, and consciousness. They recognize that their limitless potential stems from a deeper understanding of how energy drives physical, mental, and spiritual wellness. Over decades of work with hundreds of thousands of individuals, certain patterns have emerged, pointing to energy as the foundation of human health.

From conception, we are more than our physical selves—we are a collection of frequencies, part of an interconnected “elemental soup” that binds all of existence across time and space. This perspective opens the door to a profound understanding of our potential, allowing us to move beyond conventional health practices and embrace transformational tools like energy medicine and healing.

Letting Go to Move Forward

Fear often traps us in a cycle of perceived struggle and difficulty. It limits our ability to see the possibilities that exist within us. But as with turning on a light in a dark room, a shift in perspective can illuminate the potential for growth and change. Achieving true wellness doesn't require endless work or effort; instead, it calls for a release—a letting go of the mental and emotional weights we carry.

When we stop clinging to a false sense of self shaped by fear and discontent, we can reconnect with our humanity and the innate wisdom it holds. This connection eliminates the need to fight for what we already possess, allowing us to live with clarity, balance, and intention.

Resonating at a Higher Frequency

Health is not just the absence of illness; it is a state of resonance, where our body, mind,

"And if this sounds a little like science fiction, it's not - quantum energy is very real. It's the unseen power that animates the universe, and as you'll see, it plays a huge role in our health."

and energy align to create balance and transformation. When we attune ourselves to the frequencies of possibility and connection, we unlock a new reality where growth and transformation become second nature. At this level, every day brings opportunities to manifest our highest aspirations, moving us closer to harmony with ourselves and the universe.

A Call to Collective Consciousness

The emerging era of consciousness invites us to actively shape the world we want to live in—a reality rooted in peace, harmony, and limitless potential. By embracing our shared

humanity, we can move beyond division and fear, fostering a collective effort toward progress.

Each individual's participation matters; together, we hold the power to rewrite what is possible for health, connection, and wellbeing. This shared vision begins with the courage to let go of outdated beliefs and step into the unknown, trusting that our collective actions will pave the way for a future where harmony and vitality are not aspirations but everyday realities.

Remember, you are the architect of your limitless future!

WELLNESS AT HOME

LIVE THE HIPPOCRATES LIFESTYLE ANYWHERE, ANY TIME

IMMUNE-BOOSTING THERAPIES

Strengthen Your Defense System

Maintaining a strong immune system is essential. Focus on targeted immune support with nutrient-rich, plant-based meals, hydrating green juices, and simple wellness practices like lymphatic massage. Small, consistent steps can help your body stay resilient and energized. At Hippocrates, our programs incorporate immune-boosting therapies and plant-based nutrition to keep you thriving all season long.

MINDFULNESS PRACTICES

Cultivate Inner Calm

Mindfulness offers a powerful way to manage stress and nurture emotional wellbeing. Incorporate daily meditation, simple breathwork exercises, or journaling to release emotional blockages and enhance mental clarity. Even small practices, like setting aside time for reflection, can bring a sense of balance and calm. At Hippocrates, our 55-acre sanctuary offers the perfect setting for immersive mindfulness practices.

AN ANTI-INFLAMMATORY LIFESTYLE

Reduce Inflammation Naturally

With inflammation linked to many chronic health conditions, adopting an anti-inflammatory lifestyle is crucial. Enzyme-rich, plant-based meals, along with rejuvenating practices like gentle stretching, mindfulness, or red light therapy, can help reduce inflammation and support the body's natural healing. At Hippocrates, our progressive approach integrates these elements to promote balance and alleviate discomfort.

KAY CALLOU

COMBATING TYPE 2 DIABETES

"I reached a crisis at work and in my life. I was at a stage where I wanted to change what I was doing, and I didn't know how to do it. My main health condition at the time when I came was badly controlled type two diabetes. I've been a type two diabetic for 51 years. As a result of this, I faced the expected problems: stiffness, soreness, poor memory and concentration, tiredness, and no energy. In my first two weeks at Hippocrates, my blood sugar levels came back under control. My pains are nearly gone, my energy has increased, and my concentration has improved. It's not back to how it should be, but it's better. On top of all that, a happy bonus was losing 14 pounds of weight. You must experience Hippocrates for yourself. I couldn't recommend it more highly because of its comfort, beauty, and positive impact on my life. You must commit to the process to get well, but ultimately, the rewards are so worth it!"
